EXISTING STRUCTURE REHABILITATION REQUIREMENTS (CDBG)

Construction plans for rehabilitation work may require the following:

- Floor plan layout.
- Window sizes (egress requirements).
- Door sizes (handicap accessibility).
- Insulation values.
- Duct layout with new & existing heating equipment.
- Smoke detector locations.
- Electrical panel location.
- Electrical receptacle plan layout if adding new outlets.
- Plumbing fixture locations on floor plan.
- Florida Energy Code and heat load Manual J calculations (if applicable).

During the construction process, you may request to restore the electric service on an individual basis only if your electrical contractor submits a notarized affidavit stating that it is safe to restore the power to the structure and the electrical work has passed inspection.

If you have any questions, please contact a Plans Examiner at (321) 953-8924.

Note: Additional documents maybe required upon request by the Building Official.
